Dear Josh:

About ten years ago, I started a professional publication here in the company called "The Professional Nutritionist." From an original distribution list of about 1,000 professional nutritionists around the United States of America, the circulation has grown to over 10,000 - by request only - in some 32 countries. While it is a company publication, we try to play the Foremost-McKesson involvement on a very low key basis (you have to look hard to see who puts it out). We have a highly respected editorial board of outside members, and we issue the magazine four times a year.

I thought that you or some of your people might like to see a few issues, and if anyone is interested, we could see that your library is on the mailing list.

Kind regards,

Thomas E. Drohan
